- Above all, what Alex or Victor says, is the final answer. With very few reserved exceptions, scheduling games is the sole & exclusive province of Alex and Victor and they have complete control over this aspect of the program.
- Umpire schedule will be posted on the DYBASchedule.com website
 - Coded method ... Harley Rosenthal is HROS; John Brown is JBRO
- There is NO excuse to miss an assigned game
 - We understand things happen and everyone is human; if you do need to cancel a game, at least give Victor or Alex so they can schedule someone else

The Umpiring process

- Before you leave home
 - Umpire shirt on the outer most layer (sweatshirt underneath is o.k. when it's cold)
 - You are the highest authority on the field, and you should dress appropriately
 - Required Equipment
 - Clicker ... Plate-brush ... Pay slips and pen ... Small towel to dry/clean muddy balls ... Water bottle on very hot days ... Watch
 - Dress appropriate for the weather; warmer clothes in spring (i.e. 8:00 p.m. night games)
 - Bring a small tote bag to put all of your stuff in behind the screen during the game (i.e. cell phone, ipod, keys, etc.)
- Keep the game moving

Expectations of the Umpire

- Know the rules, positions, and mechanics (clinics)
- Be loud and decisive
 - Even if you make the wrong call, at least look & sound like you ‘know’ you are correct
- Look like an Umpire & Hustle
 - Often times, this is mainly what the coaches and managers want more than anything

Expectations of the Umpire

Ipods & Cell Phones

- DO NOT make telephone calls in between innings or during the game
 - We received numerous complaints last year about umpires in the middle of conversations between innings and the kids having to wait for an umpire to finish the conversation ... this is unacceptable!!
- Cell phones are only to be used before the game (i.e. to call me in the case of a field issue) or after the game (i.e. to call your mom/dad/etc. to come and pick you up)
- DO NOT listen to IPODs on the field between innings
 - Use them before and after the game only
- These are both safety issues to have these things in your pockets during the game; you will get hit by the ball occasionally and we do not want you to get hurt because you have these accessories in your pocket (put them in your bag behind the backstop)

Before the Game on the field

- Check the field and bases for safety issues
- Decide on foul ball and in play territories
- Obtain 2 new balls from the home team to start the game
- Have your field meeting to go over ground rules 10 minutes before the game starts
- Get your game pay slips signed at this time
- Check Bats (pony baseball league)

Safety & Lightning

REMEMBER: YOU ARE THE BOSS!!

- DYBA Official Lightning Policy → <http://www.dyba.com/Lightning%20Policy.htm>
- Once you arrive on the field, you have complete jurisdiction
 - If you see lightning (or hear thunder), get off the field immediately ... DO NOT HESITATE
 - If the Thorguard system sets off an alarm, get off the field immediately
 - There is a Thorguard at Woodland, Mitchell, Jewett, Shepard, Maplewood
 - If the Thorguard system at your field does not go off, but you hear the Thorguard from another field, get off the field immediately
- If you are umpiring at Woodland 1 or Mitchell 1, and see that the teams on the other 3 Woodland fields (or other Mitchell field) have left the field because of alleged lightning/thunder, you too must bring everyone off the field
 - Do not wait until you personally see it, if there is any doubt, leave the field
- If you arrive to the field and the Thorguard system is going off, you cannot step foot on the field until the All-Clear signal is sounded
- During lightning delays, the 2 hour (or 2.5 hour) game time limit is still in effect
- You do not have to wait the entire 2 hours just because that is what is left on the time limit clock if the storm is awful and there is no sight of clearing skies
- **Safety is the FIRST CONCERN ... I will always defend you (I will not even question your decision) if, in your judgment, it is dangerous to play, and you suspend or cancel a game. If a coach has a problem with canceling a game, tell him to call me and he can discuss it with me. You are not there to jeopardize the life/safety of any DYBA member; you are to use your best judgment to determine if you think there is an unreasonable risk of playing or waiting for the storm to pass.**
